REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims have been allowed in view of the combination of applicants' arguments submitted September 18, 2007 and the data set forth in Table 1 of the specification which demonstrates the improved fill density that is obtained by the claimed process of preparing a first R-Fe-B based rare-earth rapidly solidified alloy, which has a columnar texture with an average dendritic width falling within a first range, by subjecting a melt of a first R-Fe-B based rare-earth alloy with a first composition to a rapid cooling process; and preparing a second R-Fe-B based rare-earth rapidly solidified alloy, which has a columnar texture with an average dendritic width that is smaller than that of the first R-Fe-B based rare-earth rapidly solidified alloy and that falls within a second range, by subjecting a melt of a second R-Fe-B based rare-earth alloy with a second composition to the rapid cooling process and pulverizing each of the alloys and blending the resulting powders.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
